

*Together we go places*

**20th, Jun, 2017**

Dear Valued Customer,

We regret to inform that vessel MOL Anchorage voyage 722A had an operational problem caused by a container leakage. This situation forced the vessel to omit Shanghai and Ningbo, heading now to Hong Kong where it is expected to be surveyed and cleaned.

The Dangerous Goods cleaning is scheduled to start on June 20th night after approval during Hong Kong berth.

For the above mentioned reasons, the vessel will carry an estimated minimum 7 days delay into Latin America, to be recovered once it heads to Brazil. Onward deployment change is still pending. The new schedule will be shared with you once defined.

We would like to thank you for your patience and support in this matter. Please make sure to reach out to your Safmarine representative should you have questions.
