

Together we go places

Launch of MyFinance App & Portal for Invoice Reprint

Dear Safmarine Customer

At Safmarine, we strive to understand and listen to your needs and challenges when it comes to moving your precious goods around the world. To keep abreast with the changing dynamics in the way you work and incorporating technology to make it easier for you, we will be launching Invoice Reprint on MyFinance portal & App (iOS/Android)

Invoice reprint availability on MyFinance App/Portal will soon enable us to Disable SharePoint and enable each of you easier access to Invoices through MyFinance

MyFinance platform will allow you to view, email, print invoices basis the BL/Invoice number which you already possess. And all this, while on the move.

All you need to do is register yourself one-time for your individual login credentials on **my.safmarine.com**. Download MyFinance app (IOS / Android) or login through the portal on MyFinance enabling '**Ease of doing Business**' with **Safmarine**.

We will be sharing more information on the process of download and using MyFinance on both app & portal.

With these new service offerings, we're confident of giving you an enhanced customer experience.

We thank you for your business and look forward to continuously serving your global transportation needs.

Yours Sincerely,

Safmarine
