RE: 泰国严格管控废弃废弃物、电子垃圾

Need your assistance to pay the attention for this information.

请根据以下信息接收订舱避免目的港无法清关造成货柜积压产生目的港高额费用，特此通知如下。

Get the further information about the scrap import to TH situation, please assist to inform all office to be aware that.

Further information for your reference, when you accept the shipment please note that.

Pls be informed that **"Plastic Scrap"** can be imported to TH but it must be **correct specification of "scrap" type and "scrap size not over 2 cms"** per reg. of Dept of Industrial Works who give the license to some specific C/ with limited of import quota.

While "Waste Cables, Waste Motors, Waste Electric Transformer" are just prohibited to import to TH latest reg. checked with Dept of Industrial Works who mentioned that there are many Importers import with wrong specification and they hv withdraw the import license.

For "Waste Plastic" and "Electronic Waste" are prohibited to import to TH.

PS.

Plastic scrap – processed and well package, use to recycle and further process.

尺寸都已經整理好，是作為再回收製程用

Waste Plastic – no any process

沒有將規格弄好，所以跟垃圾一樣

Yours faithfully,

INTERASIA LINES
